ATTORNEY SHARES EXPERIENCES WITH RTIP STUDENTS

Tucson, AZ — Alan Foreman, Chairman and CEO of Thoroughbred Horsemen's Association, Inc. took time from his busy schedule to be a guest lecturer on Wednesday evening speaking to the ACBS 433-Advanced Racing Laws and Enforcement class. As an attorney who has worked in the industry for over thirty years, Mr. Foreman has represented a wide variety of industry participants from stewards to horsemen.

Alan walked the students through his first case, the very controversial 1980 Preakness Stakes

where the winner Codex was accused of bumping and throwing off stride the Kentucky Derby winning filly Genuine Risk. He discussed the entire process that he and the stewards used to make their case from looking at still photos to every video frame of the race.

Alan has also represented horsemen and told that students that stewards can get in trouble by issuing rulings that don't interpret their state's rules correctly as well as not looking at aggravating and mitigating circumstances when assessing penalties.

Lastly, Alan spoke about the difficulties and the importance of the implementation of uniform medication rules in horse racing.

He also described his work as the prosecutor of USEF medication cases and the differences between the adjudication of medication positives in the horse show world versus the horse racing industry.
